Thinking about a study you may run with ALSPAC data (or one that you have recently run)... If ALSPAC required that I use an ECAW, I would be less 44% 25% 30% willing to use their data in my research If ALSPAC ran a study on 20% 27% 53% ECAWs, I would opt-in. ALSPAC should run a study on 10% 55% 35% ECAWs.
